Insert top shower pipe (1) into bottom shower pipe (2). Connect hex head end of hose to swivel joint and tapered end to handshower (4). Place the tapered end of the hose into the handshower holder (9).

CARE & MAINTENANCE

Always blot dry any water from the surface of your ShowerSpa. To help protect your ShowerSpa from hard water stains and mineral deposits, use an auto spray wax periodically and wipe down your ShowerSpa after each use. Allowing water to evaporate on the surface can lead to a buildup of mineral deposits. Cleaning with a damp, nonabrasive sponge and drying with a clean soft cloth should help keep your outdoor shower looking beautiful. Winter cover recommended included.

W A R N I N G

Warranty does not cover freezing. Please consult with a professional plumber if potential freezing can occur to install proper waste valves to drain system to prevent internal damage to the unit.

FREEZE CARE

We strongly recommend installing a 1/2" Full Port Press Ball Valve w/ Drain for areas affected by freezing weather.
