

SeaBreeze II Shower System

1088-BN | 1088-CH

Designed to install in virtually any shower without remodeling; a typical install is less than 1-hour even for the do-it-yourselfer. Simply connect to the water supply at your current showerhead location and use your existing hot/cold shower valve. A “drill-less” permanent mounting-tape option on the lower body makes the install easier than ever.

- Surface mounted & pre-plumbed
- 8 inch rain showerhead
- 3-function handshower
- Adjust height of hand shower with integrated brass slide bar
- Brass diverter easily switches functions
- Use rain showerhead and multi-function handshower together or separately
